ELDORADO  OUTDOOR™

Marbella™

Artisan Fire Bowl

The Marbella bowl captures the essence of the Romanesque period. Its gently rounded bull nose and elegant foundation are hand-sanded, creating the natural feel and texture of limestone. The Marbella is perfect for a variety of traditional landscape settings.

Made from strong, glass-fiber reinforced concrete and hand-sanded through a four-step finishing process. Each Artisan Fire Bowl renders a true one-of-a-kind creation with subtle variations in color and texture similar to natural limestone. They're as functional as they are beautiful, incorporating a 65,000 BTU gas burner, providing ample heat on cool nights. Fire Bowls ship complete with lava rock and certified CSA components for natural gas or liquid propane. Choose from four different colors in either honed or travertine finishes.
